Guest Bros.
THE MEN WITH THE TAPE.

Rexall
Mosquitoes, Cnats, Elack
Fies and Punties

Is a peculiar preparation. You can't trace a part of the body and it doesn't even it. Besides this it has a rather agreeable odor and not objectionable in any way to either those who use it or those around them, but
Mosquitoes, Cnats, Elack
Fies and Punties
Kills and drives away where there is even a trace of it in the air.
Use some Rexall Mosquitoes on your next fishing trip. Saturate a piece of cloth with Mosquitoes and leave it about your sleeping apartment in the camp or on the piazza of lawn and you will be positively free of those troublesome pests. Good to rub on horses, dogs and pet cats. Put up in bottles convenient to carry anywhere. 25c.

I HAVE HIM NAILED

COMMANDER PEARY TALKS TO NEWSPAPER MEN.

COOK'S STORY DISGREDITED

"I Am the Only White Man to Reach Pole," Commander Peary.

Battle Harbor, Labrador, Sept. 14, via Wireless Telegraph, Cape Bay, N. F.—"I am the only white man who has ever reached the North Pole and I am prepared to prove it."

This statement was made to the representative of the Associated Press by Commander Robert E. Peary in reply to a question on the Peary-Cook controversy.

The Associated Press tug Douglas Thomas, after a stormy passage up the west coast of Newfoundland and through the Strait of Belle Isle from Sydney, arrived at this lonely whaling and mission settlement at noon yesterday. A squall of rain was sweeping over the harbor as the Thomas steamed in, but with glasses it was possible to make out the masts of the hull of the Roosevelt, anchored in the inner bay.

The Thomas brought out the North Pole flag, the same emblem that was flying from the mizenmast of the Roosevelt and signally, "The Associated Press congratulates you."

The Roosevelt then signalled the thanks of Commander Peary for this message, whereupon the Thomas gave three loud blasts of her whistle. In reply there came from the Roosevelt a chorus of barking and yelping from the Eskimo dogs on board, that echoed back from the surrounding hills. The Roosevelt looked little worse for her second trip to the polar regions. Along the rail were gathered members of her famous crew among them the redoubtable Captain Robert Bartlett.

Capt. Bartlett invited the Thomas to lay alongside, and the corresponding clamored over the weather-beaten bulwarks and proceeded direct to the cabin to meet the man who has stood upon the apex of the world.

The commander's greeting was cordial. "This is a new record in newspaper enterprise," he said, "and I appreciate the compliment."

The correspondent at once began questioning the explorer regarding the merits of Dr. Frederick A. Cook's claim to have reached the pole. The commander declared positively that he would not further discuss this subject until the main point whether Dr. Cook had actually reached the pole or not, had been decided by others. He then dictated the following statement to the Associated Press for publication.

"I am the only white man who has ever reached the North Pole and I am prepared to prove it at the proper time. I have already stated publicly that Cook has not been to the Pole. This I reaffirm and I will stand by it, but I decline to discuss the details of the matter. These will come out later. I have said that Dr. Cook's statement that he had reached the Pole should not be taken seriously, and that I have him nailed, by concrete proofs, to support my statements. In six months you will probably get the whole story."

BAILEY WILL ANSWER BRYAN.

Junior Texas Senate to Speak at State Fair Auditorium Next Saturday Night.

Dallas, Sept. 14.—The following announcement was given out last night by Judge Nelson Phillips, J. J. Simmons, M. T. Lively and R. L. Winfrey:

United States Senator J. W. Bailey will make a public speech on Democracy and the Tariff at the State Fair Auditorium beginning at 8 o'clock next Saturday night, Sept. 18. In the speech Senator Bailey will answer the arguments submitted on Sept. 14 at Bush Temple by Hon. W. J. Bryan, who defended the doctrine of free raw material. Senator Bailey will defend the democracy of Texas and the tariff plank of the state platform of 1896 which Mr. Bryan demanded should be repudiated by the democracy of Texas.

An army of drilled advertisers left Ada this morning with almost a car load of circulars to bill Pontotoc and adjoining counties. The object—the big Levin's sale now on.

THE CHRISTIAN REVIVAL.

Big Crowds Turn Out to Hear Bro. Kindred and the Magnificent Singing.

Evangelists Kindred and Gardner had another large and appreciative audience Tuesday evening. The singing was spiritual and the large chorus is doing splendid work. Mr. Gardner sang a solo which was well received.

The evangelist began by saying he had a double text, but was not going to preach two sermons in one. He read Matt. 4:19 and Luke 9:57-60. His subject was the Divine Summons and its purpose. After a brief introduction on why God calls men, the evangelist began the divisions of the sermon, saying this call to discipleship includes: First, the study of christianity. Our temporal affairs necessitate much study and should we think so great a thing as christianity would demand less. We demand that our officials be properly equipped and learned men so they can serve us right. Jesus said "follow Me and I will make you fishers of men." Christianity demands study. Paul said to Timothy, "Study to show thyself approved of God, a workman that needeth not be ashamed rightly dividing the word of truth." He then declared that most of the religious errors were caused either through a lack of properly dividing the Word or from trying to make the Bible confirm some individual theory. You can prove any thing by distorting the Bible. A preacher proved there were oxen in Heaven. Here is the way he did it. "Thou shalt not muzzle the ox which treadeth out the corn, for to such belongeth the Kingdom of heaven." A wrong grouping of the Scriptures makes it legitimate for you to hang yourself. "Judas went and hanged himself, go thou and do likewise, and whatsoever thou doest, do quickly." (Laughter) False assumptions will prove nearly anything. Prof. Radford used to prove that buttered bread is a greased pole. Here's the way. "Bread is the staff of life. A staff is a pole, therefore buttered bread is a greased pole."

In the second place, this summons includes the practice of christianity. This is the most intensely practical thing in the world. There is too much theory and not enough of work, too much profession and not enough practice, too much spiritualism and not enough of spirituality.

Christ was a teacher of practical things and christianity must be practical or it is nothing.

In the third place this call includes the advocating of christianity. Every disciple ought to be a living, live, burning exponent of the gospel of Christ.

We ought to be able to advocate christianity by intelligent Bible argument but don't study for argument sake. The world has no use for a theological brick bat, don't carry a chip on your shoulder, its a

sign that you have very little spirituality.

Every disciple ought to advocate christianity by preaching. Be a preacher. Jesus said to one of these men, "go thou and publish abroad the Kingdom of God." A woman said to me one time "Bro. Kindred if I had the gift of gab you have I'd start preaching tomorrow night." I replied, "Yes, sister, and if I had set up all afternoon and talked about my neighbors as you have I would not wait till tomorrow to start."

Well, you can preach by the power of a godly life. That's what counts. Live for God if you want power with men. It was God's purpose in calling us to this discipleship to bring us, First to a knowledge of the truth. Men had sunk themselves in sin. They had turned their backs upon God, and gone from the source of light and life. Jesus came to bring men back to God's eternal truth, hence his cry, "I am the way, the truth and the life."

Again it was his purpose to take us from a life of sin to a life of righteousness. "Ye are not called unto uncleanness but ye are called to holiness," said Paul to one of the churches.

Then another purpose in this call was to make us soul savers. "Follow me and I will make you fishers of men." We are workers together with God. Christ only can save the world, but he can't save it alone, so he calls us to help him.

God's all-pervading call was to save us. That is what he had in view in the ages gone by. That's why Christ died, why the church was established, why the Gospel is being preached today.

And I close as I began with the thought that salvation depends on a faithful, daily and consistent discipleship, on an every day walk with God. It may be somewhat hard to obey the call. Peter thought he had left much to follow Christ, but victory over the world begins where surrender to Christ takes place, hear his call now. In conclusion the evangelist said he would speak tonight on the subject, "Wanted, A Red Hot Sermon."

Vice President's Son to Marry.

Utica, N. Y., Sept. 13.—Announcement was made today of the approaching marriage on October 5th of Richard U. Sherman a son of vice president Sherman, to Miss Eleanor Miller.

Notice XXth Century Club.

There will be a called meeting of the XXth Century Club at Mr. E. W. Hardin's office at 4 o'clock Friday afternoon. All members are urged to be present. Mrs. Hope, President.

Business Change.

Prices from \$8.00 to \$12.00 and are virtually worth more. Give us a call before buying.

HARRIMAN A GOOD CHRISTIAN.

Trinity Parish Clergyman Pays Tribute in Wall Street.

New York, Sept. 14.—Before a crowd of several hundred men and boys in Wall street today, Rev. Dr. William Wilkinson, one of the clergy of Trinity church parish, delivered an eulogy of the late Edward H. Harriman.

Dr. Wilkinson mounted a chair at the corner of Wall and Broad streets opposite the Stock exchange, at the noon hour, and soon had a crowd about him.

The preacher began his remarks with a prayer and Scriptural reading, and then said:

"Ten years ago Mr. Harriman chartered a vessel and went to Siberia. He took with him Archdeacon Nelson of New York, and together they visited the whaling fleets, and gave real encouragement to those men, who rarely ever had a chance to go to church."

"Mr. Harriman was a good christian. He left nothing to be desired in his social and religious life. Often during his life Mr. Harriman would say to those with whom he came in contact, 'I want you to go to church.'"

"Mr. Harriman, I have been told—I never knew Mr. Harriman myself—was a model man in Arden, where he lived. He was upright and noble all through his life. Many of you young men around me are in better circumstances than Mr. Harriman when he was your age, and if you live as he did perhaps in time you will reach the same position."

"I want to impress upon you that all rich men are not scoundrels, and all poor men are not knaves and fools. To be is higher than to have."

RAINING IN OKLAHOMA.

Ground Soaked and Plowing for Wheat Now Can Begin.

Thomas, Ok., Sept. 14.—An incessant rain has been falling over Custer county since daylight, ground is thoroughly soaked and plowing for wheat can begin in earnest.

Vinita, Ok., Sept. 14.—A drought of six weeks' duration was broken when rain began falling here tonight. While too late to help the crops it brought relief to stockmen and helped the late pasturage.

GOVERNOR J. A. JOHNSON ILL.

Minnesota Executive to Undergo Another Operation.

St. Paul, Minn., Sept. 14.—Governor John A. Johnson will go to Rochester, Minn., this afternoon to undergo another operation, the result of an operation for appendicitis several years ago, which left several painful adhesions.

The governor does not regard the operation as serious, and spent this morning at the capitol transacting business as usual.

Mrs. Johnson will accompany him and will be with him during the ordeal, which is the fourth he has been obliged to undergo.

The governor yesterday had an attack somewhat similar to the one he suffered just before the Western tour several weeks ago.

+ The cotton market closed to-day 19 points higher than yesterday.
+ December New York closed to-day, 12.48; closed yesterday, 12.29.
+ The prevailing prices on the street were 12c to 12.20.

lication.

"Prohibition in Oklahoma is a huge
joke," says the State German Society.
Perhaps to them a serious joke.

The North Pole has been talked and
thought about so much of late that
the thermometer dropped 36 degrees
Thursday night.

It is thought by many that the icy
controversy of late will insure an un-
usually early frost.

Ada is getting better every day in
more ways than one. One big revival
meeting just closed, two others in
progress and the court convicting
bootleggers every day. "Clean up"
seems to be the slogan.

STATE NOTES.

Since the prohibition enforcement
wave has struck Sapulpa the city au-
thorities have even prohibited the
sale of soda water there on Sun-
day.

A town holdover built at Binger
last spring remained without an oc-
cupant until last week when a wo-
man was thrown in for drunken con-
duct on the streets of the town.

One of the most unique characters
among the school teachers of Oklaho-
ma is Ollie G. Starr, wife of Henry
Starr, the notorious Cherokee Indian
who is being held by state officers
of Colorado on a charge of being im-
plicated in a bank robbery. She is
teaching the Anderson school in
Osage county.

Having been employed by Cox and
Wymann, Queen Street, Long Acfe,
London and having held copy of Charles
Dickens' revises the distinction
claimed by J. H. King, a printer now
employed on the Ponca City Demo-
crat. King also saw twelve years ser-
vice in the British army in India.

State Enforcement Attorney Fred
Caldwell introduced record evidence
during the trial of liquor cases at
Sapulpa, stating that 26 different
holders of federal liquor licenses dis-
posed of 27 car loads of liquor in
Sapulpa in nine and a half months,
realizing a profit of approximately
\$35,888.

Some reprobate engaged in whole
sale thievery made away with 300
head of cattle belonging to A. S. Pal-
mer and John Potter, of near Ken-
ton and although a searching party
has been riding night and day not
a trace of the missing herd has been
found. This incident is a reminder
of what commonly occurred in the
early days of the Oklahoma pan-
handle country.

One of the most romantic mar-
riages witnessed in Hobart for many
a day occurred at the Rock Island
station in that city, when L. H. Hun-
nicup was married to Mrs. Emma J.
Hunnucup of Iowa, between trains,
in the waiting room of the station. The
bride proved to have been a former
wife of the groom who took this
unusual meth of renewing old vows.

An enterprising deputy sheriff at
Enid slipped up behind a citizen of
that town, who was carrying a sack
full of bottles along the street, and
who looked very much like a boot-
legger to the officer.

What have you in that sack? Inquired
the officer.

Just a little whiskey, mister, re-
plied the citizen.

How much a quart? ventured the
officer.

Well, this stuff is pretty expensive
nowadays, since the sheriff is raid-
ing all the joints, but you may have
a bottle for 75 cents, replied the sup-
posed bootlegger, as he handed the of-
ficer a bottle of pop, apologizing for
the discrepancy.

The deputy displayed his badge and
retired, confused.

Marriage Licenses.

Titus, 21, Ada.

15 CENT COTTON BATTLE CRY.

President Hightower of the Missis-
sippi Farmers' Union, Declares
That Now is the Time for
Holding the Staple.

Jackson, Miss., Sept. 14.—After
practically covering the state of Miss-
issippi the past few weeks, which
gave him opportunities to study the
cotton situation, President G. R. High-
tower of the Mississippi Farmers' Union
expressed the opinion that condi-
tions here taken in connection with
those elsewhere about the cotton belt
justified the belief that middling staple
ought to command not less than
15 cents a pound. President Hightow-
er said:

"The cotton crop of Mississippi is
exceedingly short. Texas is even
worse than our own state; Oklahoma
has recently suffered a great loss
from drouth and hot winds; Arkan-
sas is also considerably below par;
Alabama, while short of last year, is
not quite so bad as Mississippi,
Georgia and South Carolina have
fairly good crops in the southern
portion but the northern portion of
those states are short. Neither state
will make nearly so much as last
year. So on the whole the indications
point to a very short crop for the
entire belt. Trade conditions are fair-
ly good. The consumption of cotton
kept the pace with the production
during the last year, notwithstanding
the fact we had a large crop and poor
trade conditions.

"BOOTLEGGERS MUST QUIT."

This Is the Declaration of County
Judge Terrell.

Judge Joe Terrell made the em-
phatic statement today that the boot-
leggers of Pontotoc County have got
to seek other parts in which to car-
ry on their illegal business.

"It may be impossible to enforce
the prohibitory laws in Oklahoma
county, but it is not in Pontotoc,"
said the Judge in a manner that
indicated that he meant exactly what
he said. He further stated that ev-
ery bootlegger would get his hear-
ing within one week from the date
of the charge. The facts seem to be
from the Judge's remarks that life
for the unlawful liquor dispenser will
be indeed strenuous if he endeavors
to continue in business.

DAVIS AND HUGHES AGAIN.

Given Limit in Case of Tuesday, Six
Months and \$500—Second Case in
Jury's Hands.

The state vs. Ed Davis, Jno. Hughes
and Will Johnson, charged with keep-
ing liquor for the purpose of sale, has
consumed the court's time today.
Counsel for the defendant swore Judge
Terrell off the bench, charging prej-
udice against clients, and Judge Max-
ey was elected in his stead. In this
case the state showed that on the
date of the complaint the defendants
received 17,850 pounds of beer and
over 3000 pounds of whisky. County
Attorney Wimbish made another plea
for the maximum penalty, and was
bitter in his denunciation of those
who openly, defiantly and cold blood-
edly defied their country's laws. He
stated that there was not a business
enterprise in the city that made as
much profits according to amount in-
vested as these men did in the few
months they did business.

EAST CENTRAL NORMAL NEWS

Dr. Briles Makes Statement to the
Public.

Many inquiries have come to me
relative to the work of the Normal,
and I take this opportunity of giv-
ing the desired information to all
interested parties.

As has already been announced the
Normal will open for the regular fall
term Monday, Sept. 20, at 9 o'clock.

While the furniture is being placed
in the new high school building, it
will be necessary for us to occupy
the Methodist church for two or three
days. The stewards of the church
have very kindly offered us the use
of the church until the school build-
ing is ready. We expect to be ready
to move into the high school by Wed-
nesday of the opening week.

As you will observe from our an-
nouncement the course of instruction
offered by the Normal schools of this
state includes a six years course, be-
ginning with the work of the eighth
grade. In as much as the Board of
Education of this city will contribute
to the support of the Normal until
the appropriation is made we have
agreed to carry the work of the
seventh grade also. This work in
the seventh grade, however, will be
open to pupils residing in the district
of the South and East schools only.
The work of the seventh grade will
be done by the regular Normal fac-
ulty with the regular length of the
recitation period given to each class,
and the term will be nine months in-
stead of eight in the public schools.
These pupils will also have the ad-
vantage of the music, drawing, and
manual training with the teachers

of these departments in the Nor-
mal.

I want to urge that all pupils in
the grades indicated above be pres-
ent on the opening day, so that ev-
ery one may be properly classified,
and the course of study arranged.

The model school of the Normal
will include all pupils in the first
six grades of the south side school.
These pupils, however, will not be en-
rolled until Sept. 30, when the pupils
of the public schools of the city will
be enrolled. We expect to be able to
take care of all of these pupils in
the new building. In order to make
the burden of supporting the Normal
as light as possible for the people
of the city, I have agreed to as-
sume control of the south side school.
The Board of Education will supply
two of the teachers, and the remain-
der of the work will be done by ad-
vanced pupils and critic teachers.
By this plan the Board of Educa-
tion will save for the city not less
than \$1500. It will cost the city
\$1500 less to carry the first six grades
of the South school than the same
grades of the north school.

I wish to assure those who will
patronize the model school that you
will be given good service. It is our
purpose to make the professional
work in the East Central the strong-
est in the state, and to do so we
expect to give especial attention
to the training school. We will have
one teacher give her time to super-
vision of the first grade, another will
have charge of the second and third,
and another of fourth, fifth and sixth.
These teachers are well adapted to
the work assigned them, and I feel
sure that we will have a model
school of which we may justly be
proud.

I wish to say that all departments
of instruction in the Normal are
open to any pupil without charge.
C. W. BRILES.

For the Artesian Well.

Mr. Stall has had a 60 gallon reser-
voir made to deliver the water in.
In a statement today he said, I have
been constantly having complaints
from my patrons in regard to the bot-
tles having had something else in
them beside water, every bottle was
rinsed at the well, but it was found
that some people actually had vine-
gar, Choctaw beer and other things
in them, and the only means of erad-
icating this from the bottles was to
use boiling water which would be
impracticable. So by the means of
the reservoir each person can keep
their own vessels, and fresh water
be brought to them every day.

The reservoir is made out of a gal-
vanized metal, and encased in wood
and painted, consequently there is
not a possible chance for a germ or
particle of dirt to get into the wa-
ter. The wagon will make its regu-
lar run every day, and if it is just
a little late, please bear with us
just a little as it will reach you,
and supply your needs, in case that
anything is not to your entire satis-
faction, don't fuss at the driver, but
phone 176, and your wants will be
immediately adjusted. Respectfully,
N. B. STALL.

P. S. Analysis of this water is
framed and hung at the well. 2t

Great Service at Ashbury.

The service at Ashbury last night
was well attended and all considered
the meeting one to be long remem-
bered. Many have been the words of
commendation on the sermon. It
seemed that Brother Saunders was
at high tide and sent the message
home to the hearts of the hearers.

The subject for tonight is Failures
and Successes. You are not only in-
vited but requested to be present.

The singing is worth your time and
we need you and your prayers in the
meeting.

The readers of this paper will be
pleased to learn that there is at least
one dreaded disease that science has
been able to cure in all its stages,
and that is Catarrh. Hall's Catarrh
Cure is the only positive cure now
known to the medical fraternity. Cat-
arrh being a constitutional disease,
requires a constitutional treatment.
Hall's Catarrh Cure is taken intern-
ally, acting directly upon the blood
and mucous surfaces of the system,
thereby destroying the foundation of
the disease, and giving the patient
strength by building up the consti-
tution and assisting nature in doing
its work. The proprietors have ac-
much faith in its curative powers

TEXAS DEPT. STORE.

The W. C. T. U. will hold their regular meeting tomorrow (Thursday) afternoon at the residence of Mrs. R. E. Haynes at 3 o'clock.

Sad Message Received.

Mrs. W. M. Goynne received a message yesterday announcing the death of the baby of her sister, Mrs. M. L. Leaid, of Comanche, Ok. On account of Mrs. Goynne's baby being ill with typhoid fever, she was not able to attend the funeral.

Mrs. A. Vanorden came in from Konawa this morning.

A Blow to Socialism.

The theory of socialism as applied in practice has received a signal rebuff in New Zealand. The purpose there was to have the government provide work for all wage-earners who could not find private employment. Accordingly the state has hired surplus labor in building government railways, opening and farming public lands and in other public revenues have decreased and the funds available for the distribution of wages have dropped this year from \$12,000,000 to \$7,000,000. Simultaneously the funds at hand for all other departments of the insular government have decreased. The situation has become such that one-seventh of the population of New Zealand is dependent upon the state for work. Hence suddenly it has become pre-eminently a land of the unemployed.

Perhaps it is not surprising that the remedy proposed for this collapse of socialism is that it be bolstered by more socialism. That would be a political application of homeopathy to the state that fares ill. It is now proposed that the government shall insure against nonemployment; in other words, that it shall provide a pension for those out of work. It may be assumed that this is the deliberately chosen policy of the government, since the plan is advocated by the minister of finance. It is also suggested that a further insular loan be floated in the London market in order to meet the demand for work. The present indebtedness of New Zealand is \$350 per capita, the annual interest charges being approximately \$10 for each man, woman and child. There is opposition in the colony to this scheme, and while the debate goes on, the jobless clamor for jobs and bread. The socialists are facing the economic impossibility of squaring the circle. But if the rest of the world learns the lesson, New Zealand will not have undergone its experience in vain.

Mrs. A. Vanorden came in from Konawa this morning.

MAIN STREET BUSY

AT MEETING MEN DECIDE TO Pave With Asphaltum on Concrete Base.

WORK IS TO BE RUSHED

Broadway and Townsend Avenues to Be Dressed Up.

According to previous announcements the Main street property owners met at the Club rooms Tuesday evening and proceeded to consider the paving of Main street and portions of Broadway and Townsend. It was the prevailing sentiment to use native asphaltum on concrete base. The bounds of the streets which are to undergo this magnificent improvement are as follows: On Main from the Frisco to the Katy tracks and Broadway and Townsend avenues from 12th to the Frisco.

The attendance was good and it seemed to be the prevailing sentiment that the work should be pushed to completion as early as possible.

The action of these men will meet with the hearty approval of all town builders in the city and those who are hopeful of Ada's future. The laborers especially will be glad as this means that thousands of dollars will be turned loose in labor circles in the very near future.

FEWER BALES AND A SMALLER ACREAGE

Phy Sentence Sizes Up Condition of Oklahoma's Cotton Crop.

Fewer bales and smaller acreage sizes up Oklahoma's cotton crop for the year from the standpoint of production. Cotton dealers expect the short crop because of the higher prices prevailing to yield as much money as the crop of last year.

"This being true the business man and the producer of cotton will not suffer from the small crop," said a local cotton dealer yesterday.

"The cotton dealer is the only man it hurts since his commission is based on the number of bales, not on the value of the bale."

The crop which has matured early on account of the warm and dry weather is moving earlier than it did last year. Dealers are paying 11 3-4 cents a pound, where they paid 8 cents last year.

Dealers are buying and the crop is being marketed this year at a time when there was no cotton on the market last year.

Oklahoma has fared in cotton crop shortage similar to the neighboring states of Texas and Arkansas, according to crop bulletins on estimated production.

That cotton dealers have faith in the state as a cotton country is proven by the fact that there are more cotton buyers in Oklahoma City this fall than ever before. But a still stronger proof comes from government statistics showing that Oklahoma produces more cotton to the acre than any other state.

Misses Betsie and Willie Faust who have been visiting in Hickory have returned home.

***** We extend the public our very respectful GREETING *****

YOU ARE informed that Drummond & Lattimore are installing a men's complete furnishing goods store in the city of Ada. The location of the new store is north side central Main street in the commodious, modern, new brick building just constructed.

The stock which is new and clean is being received rapidly from day to day and it is thought by the 10th the store will be complete and the doors can be thrown open to the store which shall make a strong bid for the favor and confidence of the people.

BRYAN

Talks Politics at a Big Meeting at Dallas—Discusses Tariff.

Dallas, Tex., Sept. 14.—Denouncing an as an embezzler of power a man who would violate a party pledge ratified by the voters of his party, William J. Bryan here today outlined his views on the tariff before a large audience.

Bryan came to Dallas at the solicitation of party leaders of the state to discuss political affairs.

"Cannonism," Bryan described as despotism and the speaker suggested amendments to the rules of the house of representatives to correct what he considered the worst faults. While not denying a candidate has a right to repudiate a part of the party's platform, such repudiation, Bryan asserted, should come before the election, not after.

949,006 SCHOOL CHILDREN

In Great Texas as Shown by Scholastic Census for Year Completed by Department of Education.

Austin, Tex., Sept. 11.—Department of education today completed its final count and tabulation of the scholastic census for the year, the tabulations showing there are 949,006 school children in Texas between the ages of 7 and 17. There are 386,332 white male school children and 370,483 female white school children making a total of 756,770 white school children. There are 95,725 male negro school children and 97,510 females, making a total of 193,235 colored school children.

According to the apportionment of the state board of education, the districts and counties wherein these children are reported will receive \$6.25 per capita as an apportionment for the coming year, the money to be used in the maintenance of the public schools.

101 Ranch Sept. 18.

Chan-ku-ta-wea, a blue-blooded descendant of the royal family of the Sioux Indian nation, whose skill with the shotgun is the wonder of the world of fire arms, is one of the features of the 101 Ranch Wild West Show, which will be here on next Saturday. Her exploits require sustained daring, nerve, steadiness and unerring eye, whose equals neither the white nor redskin races have produced.

The "girl" has no recollection of the time when she did not handle a shotgun. She played with one when a child as other little girls play with dolls. Her name is an Indian appreciation of her skill, meaning "Little Shooting Girl."

Adopted by the whites at an early age, Chan-ku-ta-wea was sent to Carlisle College. Contact with white civilization and the education of the east did not suffice to lure her from the wigmans of her forefathers. She was riding the Oklahoma prairie on a spotted pony, as in the primitive days of her childhood, when the Miller Bros. owners of the 100,000 acre 101 Ranch engaged her to participate in the performance of their frontier show. Her exhibition is an amazing demonstration of the extreme possibilities of the shotgun at the traps and in fancy and practical fire arms exploits.

PROHIBITION.

Petersburg Index-Appeal.—Prohibition is everywhere and at all times an invitation and an incitement to evasion, violation and contempt of law. It is the opportunity of the worst elements of society to reap enormous gains by pandering to the satisfying the appetite for strong drink—an appetite which probably existed as much at the time of the Feast of Cana as at the present day. So far from promoting morality, it aids and encourages immorality, and profits at the expense of law-abiding citizens upon whom falls the burden of government, which a properly regulated liquor traffic would help to sustain, but from which the prohibition blind tiger goes scot free, though inflicting greater evils than is within the range of possibilities of a lawfully regulated traffic.

DO YOU OWN A GOOD RAZOR?

STATE FAIR DEMOCRATIC DAY.

The State Committee Selected Oct. 6 for the Occasion—Gore and Owen Will Deliver Speeches.

Guthrie, Ok., Sept. 13.—At a meeting of the democratic state committee, held here yesterday, it was arranged to observe Oct. 6 as "Democratic Day" at the state fair in Oklahoma City. The state committee will arrange for speakers and a banquet. State Chairman Thompson will call the committee in a business session on the night of October 5. On the following afternoon Senators Gore and Owen will deliver speeches in the fair grounds, and the banquet orator that night will be Congressman Champ Clark of Missouri. It is hoped to have 1,000 seated at the banquet, admission to which will cost \$1.

For Centuries Students Have Tried Without Success to Trace Origin of Basque People.

The Basque provinces lie in the north of Spain, and although for centuries students have tried to trace the real origin of the people and find a key to their language, they have failed to do so.

The race is a Catholic one, and their devotion to the Catholic faith is so firm that it is commonly said the devil gave them up as a hopeless object of his sinister attentions, simply because he could never understand or master their language.

All other known tongues spoken by the sons of men have been shown to possess a common origin, traceable to the Arabic and Semitic. But the Basque language has entirely resisted the philologist. In some aspects the vernacular shows traces of a Chinese admixture; in others it is clear that North American Indian terms are native to it. It also shows traces of barbaric languages spoken on the east coast of Africa.

The people themselves bear physiological traits found in those who speak the said tongues. The native name of Basque land is Eskuara, and their motto is "Irracabat," or "three in one." Nor is their political structure anything like that of any known political body, though they belong, of course, to Spain.

Each Basque province is governed by a parliament composed of representatives—selected partly by election, partly by lot—among the householders of each country parish or town. Their laws are essentially peculiar to themselves, and are conceived on no known code, either by ancient or medieval times. They are the puzzle among nations, and number 500,000, all told. —Cleveland Plain Dealer.
